

Connecting to Your GlowStone Lights

11:49

GLOWSTONE lighting

First we will go into your phone's settings. Click on the settings icon.

Now we will go into your phones wifi settings by clicking on "Wi-Fi".

Known networks will be joined automatically. If

Soon a wifi symbol will appear in the top right corner. This means you are connected to your lights. It will still say "No internet connection" beneath the network name but this does not matter.

Now find the SkyDance app and open it.

When opened, the app will briefly connect to the lights.

When you see this page you are successfully connected and can begin customizing your lights.
