How to Reset Your Wi-Fi Device

Looking to the Controller you will see a small black button called "Match"
(it is right next to the blue light on Bottom Left Corner)
PRESS & HOLD "match" for 15 Seconds

Go to your Smart Phone "**Settings**",
then to "**Wi-Fi**"
look for something called **"WiFi– SPI"** followed by a bunch of numbers or letters.

Connect to **"WiFi– SPI"** and wait for the "Wi-Fi" symbol 🛜 to appear at the top of your phone.
Launch **"Skydance"**, within a few seconds you should see the Opening page.
Click on the word **"Cog"** to get into the APP settings.

Click on **"Mode Parameters"** and make these changes:
1. Jump 2sec & 1 Colour Length
2. Flash 300 Colour Lengths
3. Fade 300 Colour Lengths

Click **"Apply"** at the top right of the page then use the top left arrow to go back to setting.
Change the Name to **"GlowStone"**
Then Press **"Save"**

Now open the APP and go to the **"Modes"** page.

Select **"Edit"** in the top right corner
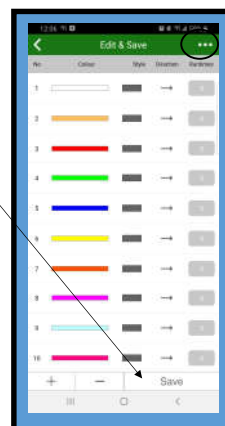

Select **"▪▪▪"** where the Edit button was before

Then Select **"Import back up"**

Select your back up file and press OK

DO NOT FORGET TO PRESS **"Save"** after the import is successful

Go back to opening page of the APP and Select

the Blue 📶 symbol
this will take you to the Network Page

On the Network page click on the SSID name of
the device and change it to
"#### Glowstone"
(4 numbers [space] GlowStone)

After it is renamed press **"Apply"**

Go back to your Phone's Wi-Fi Settings and
confirm that the name was changed.
