How To
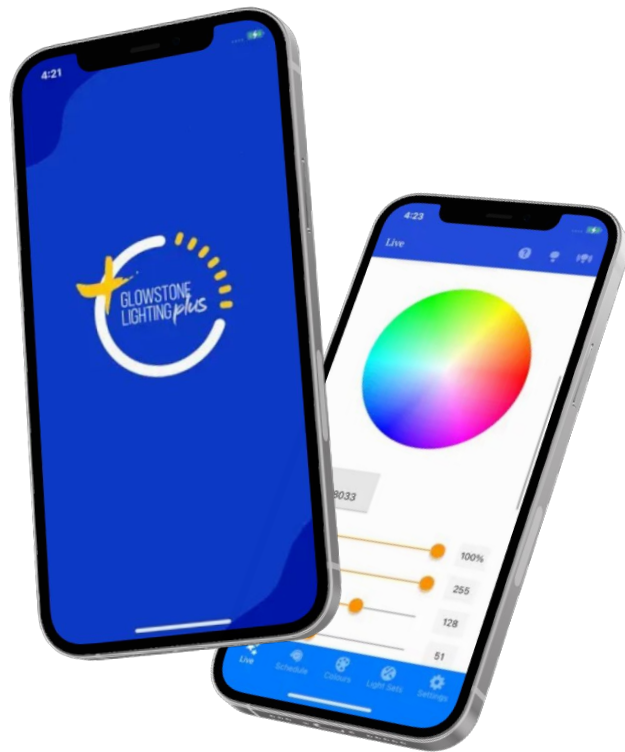

Use Pot Light and Accent Lighting Effects
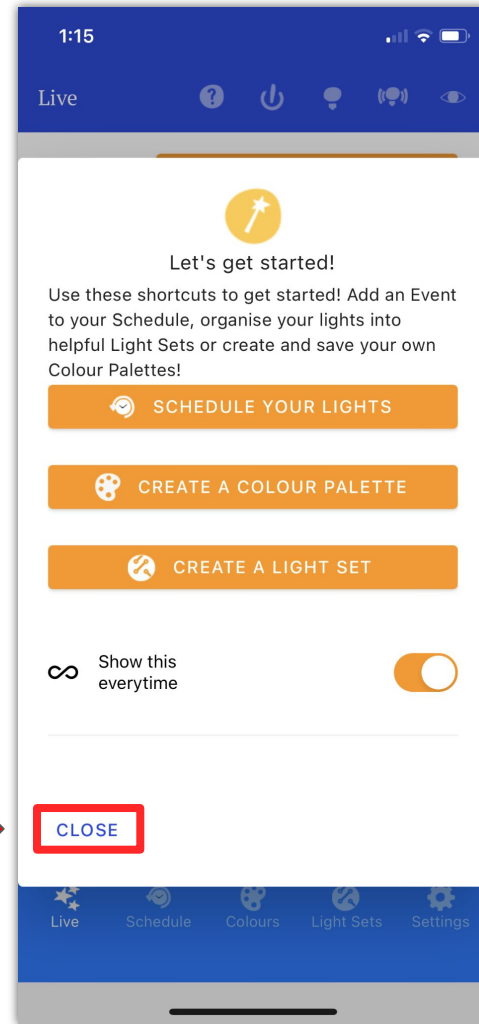

On the Glowstone Lighting Plus App

IMPORTANT

You will not be able to use the new "Glowstone Lighting Plus" app unless you have had a compatible **new controller** installed.

If you are unsure if you have the new controller or want to have one installed you can contact us by phone at 403-453-2224, or email at info@glowstonelighting.com.
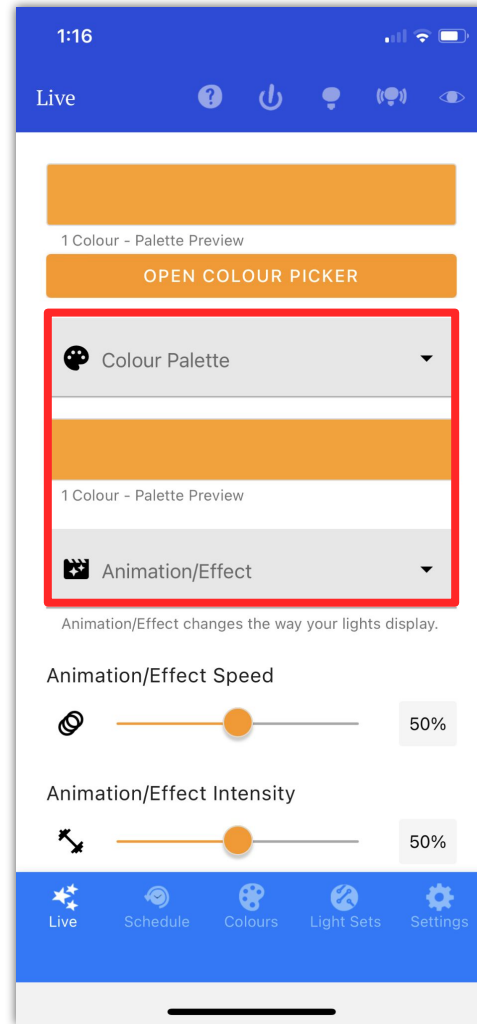

#1

The first step is to launch the Glowstone Lighting Plus app and close the "Let's get started!" page.
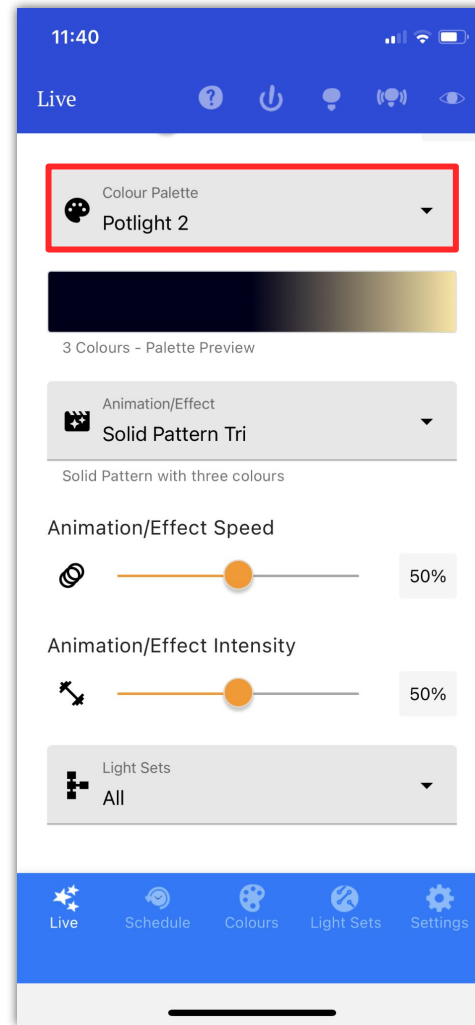

#2

Now , you're on the "Live" page:
- Scroll down and find the "Colour Palette" and "Animation/Effect" buttons.

#3

Under the "Colour Palette" section, select one of the "Accent Lighting" or "Pot Light" colour schemes.

#4

Under the "Animation/Effect" Section select the Effect named "Solid Pattern Tri".

This effect will alternate the colours in the palette, thus creating the effect you're looking for when used with the Potlight colour scheme or Accent Lighting color palettes.
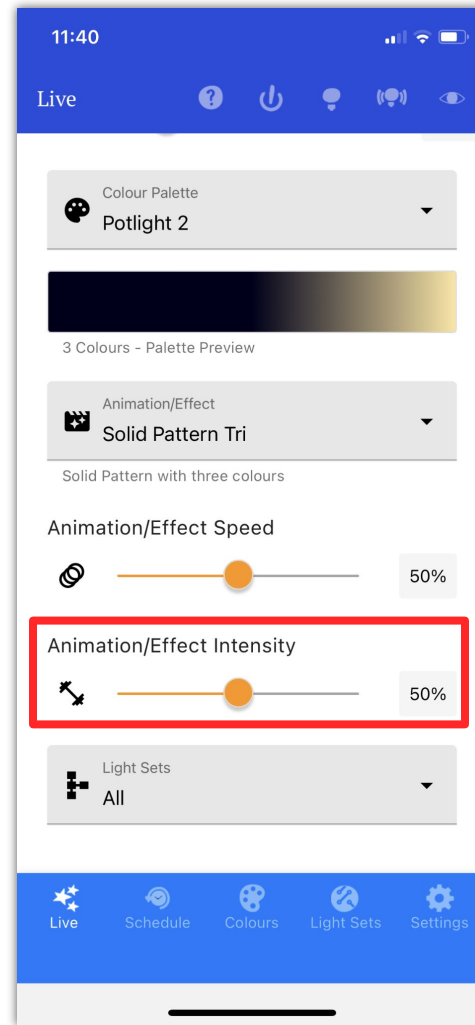

#5
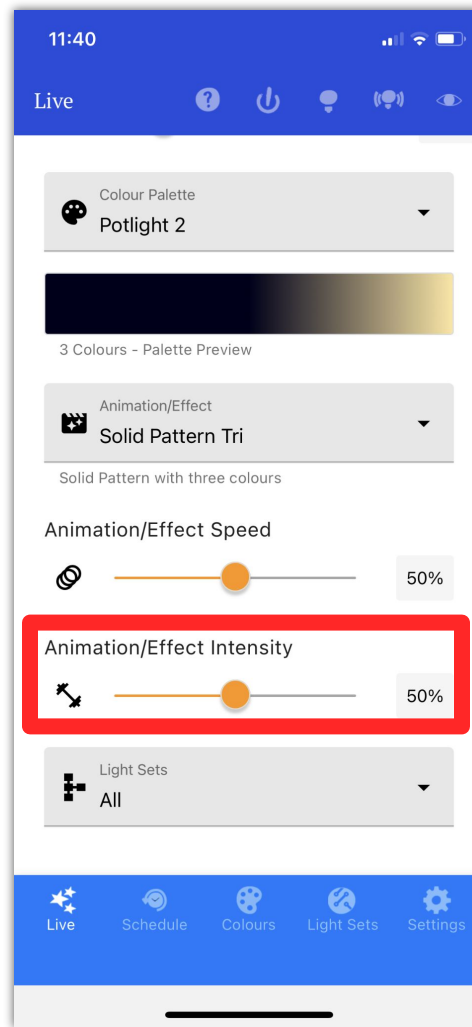

Your house should now be displaying the right effect, But…

The spacing, of each colour, may not be what you want.

To change the spacing, adjust the "Animation/Effect Intensity".

#5

To fix this adjust the "effect intensity". Here are some examples of what the different percentages will make your lights do-
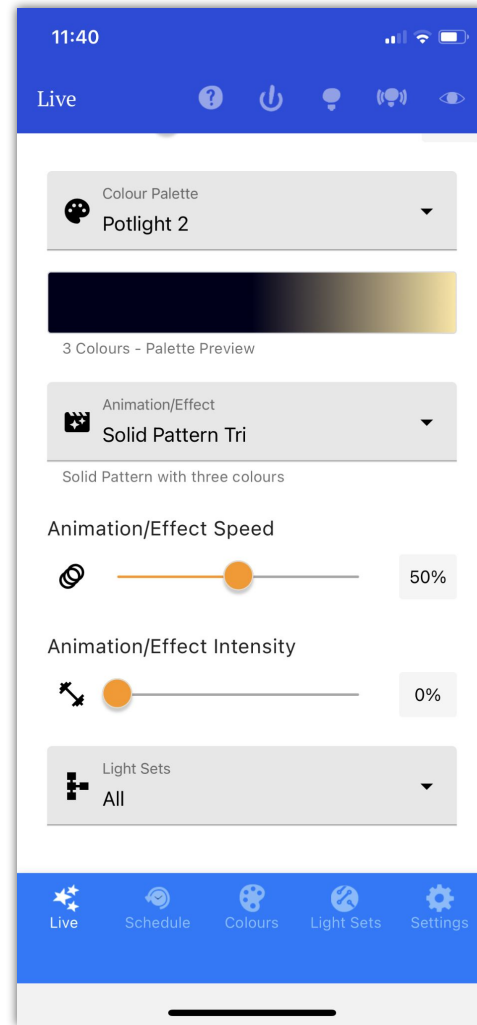

#6

Here is how the different % will display your lights:

- 0% is 1 Light of each colour
- 20% is 2 Lights of each colour

Etc...

0-30% is the recommended settings Range for the Pot Light or Accent Lighting effect.

Thank you!

We hope you Love Coming Home to your GlowStone Lighting.

Need help or have questions? We're here for you! Give us a call or send us an email, and we'll be happy to assist.
